

# WALK-BEHIND TROWELS

## B446 MEGA-T PRO

**BARTELL**  
CONCRETE EQUIPMENT

### Introducing the new Mega-T. Performance troweling at low and high RPM!

The Bartell high performance power trowels provide the contractor with reliable robust machines suitable for finishing large areas of newly laid concrete.

Available in a 46" variation, the Mega-T is manufactured from heavy gauge steel and jig welded to ensure complete rigidity, strength and long life. The Mega-T's CVT transmission is coupled with a high horsepower engine, allowing for high torque at any speed. A sight glass for checking the oil level ensures the contractor trouble free operation and high production rates.

#### Features

- Continuously Variable Transmission (CVT) with higher horsepower engine.
- High torque at both low and high speeds - 25 RPM to 180 RPM
- Smooth pitch control for fine pitching trowel blades evenly for concrete finishing.
- Precision machined spider assembly for smooth finishing
- Chrome guard ring and tri-tube handle for durability and aesthetics.
- Emergency engine kill for operator safety if handle is released during troweling.
- Belt guarded for safety, and slip free operation.
- Hoist hook included.

Specification  
B446 Mega-T

Specification B446 Mega-T	
Type	Gasoline/Petrol
Engine	Honda GX340
Power Output Hp (Kw)	10.7hp
Float Blade Size	10" x 18" (25 x 46cm)
Finish Trowel Size	10" x 18" (25 x 46cm)
Combination Blade Size	8" x 18" (20 x 46cm)
Float Pan	48 1/2" (123cm)
Operating Weight	Up to 260 lb (118kg)

#### Applications

- Accurate troweling of wet concrete in areas such as:
  - Warehouses
  - Factories
  - Floor Slabs
  - Bridge Decks
  - Car Parks
