

GT-3400 SIDEWALK TRIMMER

GOMACO[®]

The Worldwide Leader in Concrete Paving Technology

- High-Volume Grade Preparation with the GT-3400 Trimmer -

- A trimmer for narrower-width, zero-clearance flat or monolithic sidewalk and curb and gutter
- Easily fits between existing trees, utility poles and other obstacles in residential sidewalk paving
- Three-track design features All-Track Steering for easy maneuverability between obstacles, getting on/off stringline, and loading/unloading the machine
- Trims standard and monolithic sidewalk profiles up to eight feet (2.4 m) wide
- Hydraulically-controlled front gate on trimmerhead can be raised to trim through windrowed material or lowered for standard trimming
- A 15 foot (4.6 m) long, 15 inch (381 mm) wide transfer conveyor and a 19 foot (5.8 ft) long, 20 inch (508 mm) wide discharge conveyor move the trimmed material
- Discharge conveyor folds and swings 90 degrees from center to avoid obstacles such as trees and utility poles
- The GT-3400 is operated by a wireless remote control allowing the operator freedom to move around the job site while operating the machine
- Controls are located on the discharge conveyor for positioning and folding

CG-071428 D17
CG-071412 D16

The trimmerhead has a front gate with hydraulic control. The front gate can be raised to trim through windrowed material or lowered for standard trimming applications.

The GT-3400 sidewalk trimmer is operated with a wireless remote control, and its compact size allows it to easily fit between obstacles in zero-clearance sidewalk paving conditions.

CG-071412 D11
CG-071427 D5

The GT-3400 trimmer's long placing belt moves the trimmed material away from the machine and over the stringline. It is trimming 1.9 meters (6.2 ft) wide on this project in Canada.

The GT-3400 trimmer is easy to transport. The rear discharge conveyor is positioned to the center of the machine, hydraulically folded, and the entire machine, including trimmerhead, can be driven onto the truck's trailer.
