

RIDE-ON FLOOR REMOVAL T2100 EI

Zero emission, ride-on floor scraper tool that performs better than any other battery option on the market.

The compact design is highly maneuverable with a zero emissions battery operated drive system. The battery operated system does not compromise on power with a performance at least equal or better to other machines of a similar class.

With zero emissions, low noise, and no cables, this machine is capable of working in occupied areas with minimal disturbance.
